

A Part of EU 2030: The learning, teaching, training experience

Athens

The most amazing experience of a Learning, Teaching and Training Activity (LTTA) was concluded in Athens in February 2023. During 5 days that will remain memorable, 15 youth from the consortium's local youth councils gathered in the hellenic capital to come together and share their experiences on creating more than 75 activities related to the 17 SDGs of the Agenda 2030 of the United Nations.

SUSTAINABLE DEVELOPMENT GOALS

The Social laboratory hubs

More than simple activities, the A Part of EU local youth council members worked for months in Malta, Spain, Greece and Serbia to generate ideas and put them into play, tackling five areas of participation that covers all aspects of our lives. And so, it wasn't only about creating workshops to end poverty or build a sustainable city, it had to be social laboratories touching five areas of youth participation, with the aim to include everyone!

The 5 areas of participation

They are a meaningful approach to work towards the achievement of the 17 SDGs.

- 1 Participation through the family**
- 2 Participation through Sport and culture**
- 3 Social and Political participation**
- 4 Participation through Voluntarism**
- 5 Participation through Training and Employment**

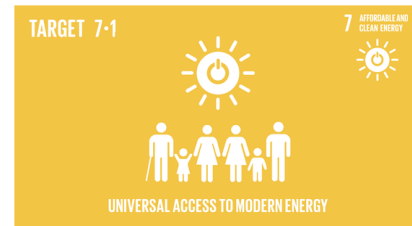

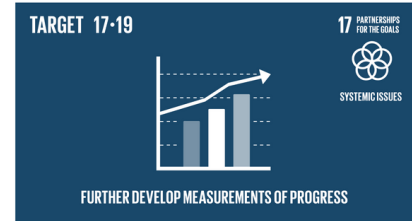

Learning while playing

The learning experience was fun beyond belief. With serious matters such as the ones tackled by the 17 SDGs, the "A Part of EU 2030" youth council members were creative enough to pass the messages in the most original ways possible. Some examples of activities:

- There was a fashion show made of recycled materials.
- There was a context to design the best sustainable city.
- There was a fishing party where small fish were trying to avoid to be swiped away by a big fishing vessel.
- There was a play about the economic class divide.

A handbook with all the activities will be made available soon. Follow us on our different social media networks.

What is on ?

You will be the first to be informed once the handbook with all the activities will be published

An awareness campaign about the meaning of the 17 SDGs in the 5 areas of participation is currently going on. You can follow the content on all our social networks

Check out the "A Part of EU 2030" tik tok account and watch all the videos that were produced during the activities.
