

The A part of EU Local Youth Council members ★ The stars of the SDGs ★

Who are they

A group of more than 50 youth from Malta, Spain, Serbia and Greece, committed to be part of the conversation about social wellbeing for all, by being the face to the proof that youth voices matters more than ever. By building upon a political set up within countries' local councils, they wanted to make a statement: we are politics and we care about humanity. Most importantly, they were saying that they care about the 17 Sustainable development Goals of the Agenda 2030 of the United Nations, Throughout the duration of their mandate, they achieved a lot.

THE GLOBAL GOALS

Their mission

Their mission was to do politics, but not the classic one! Within the A Part of EU local Youth council membership, roles were taken based on the democratic mission to deliver! Less meetings and more actions. And so they deliver and numbers speak

The Local Youth Council in Spain and Serbia

Members of the Spanish LYC have been actively engaging in various activities with other young people in the municipalities of Alcorcon and Leganes. For Instance, in June, two girls from the LYC conducted a workshop with students from CEMU school in Leganes, focusing on promoting equality and coexistence, based on the SDG 16 (Peace, Justice and strong institutions). During the LGBTQI pride celebration, another LYC member organized a community workshop around concepts and stereotypes, specifically related to SGD 5 and 10 (achieving Gender equality and reducing inequality for all).

The Serbian youth were the leader in terms of sharing and spreading the project and its outcomes in the various social media accounts, in particular Instagram, making Serbia the partner country where most people were reached on that platform! Kudos to them!

The Local Youth Council in Greece and Malta

The Greek Local Youth Council has been actively involved in the digital dissemination of the "APOFEU 2030", Taking advantage of online platforms, the council ensured the project's extensive reach to the Greek youth. Through digital information materials, they effectively communicated the significance of the SDGs, emphasizing the project's core message. The youth from Greece have been instrumental to the huge success of the Learning and Training activities in February during which performances and roles plays made the SDGs understandable to all.

In Malta, Racheal, Lorraine, Negmeldin, Rudy, Levi, and many more that cannot be named here took the bull by the horns and excelled in promoting the SDGs. Their dedicated efforts and initiatives had a significant impact on raising awareness about sustainable development goals and fostering positive change within their communities. The reach in the community was substantial, especially during the radio talk shows where the knowledge about the SDGs was further spread.

SUSTAINABLE DEVELOPMENT GOALS

Numbers that speak of a successful campaign

The Audience Engagement was fulfilling, based on the amount of work and effort that the Local Youth Council members put to the project.

The reach on Social Media

The Followers age range

The geography of Followers

It is not over!

The project website and social media accounts will remain forever available from where you can have access to all the materials produced as part of the A Part of EU 2030 project. The handbook containing 75 workshops put together by the local youth council members can be downloaded from the website and will be available in English, Spain, Greek and Serbian. Stay tuned for the closure multiplier events that will be announced in a press release.
